

Health Safety Environment & Quality Policy

TDG Environmental is committed to achieving excellence in Health & Safety, Environmental Management, and Quality. Our integrated approach ensures compliance with ISO 9001, ISO 14001, and ISO 45001, enabling us to improve our processes, enhance performance, protect people, and the environment.

Objectives:

Health & Safety:

- To ensure the safety and health of all employees, clients, and stakeholders.
- To comply with all applicable health and safety laws and regulations.
- To prevent work-related injuries and ill health through proactive risk management and employee engagement.

Environmental Management:

- To minimise our environmental impact through sustainable practices and resource use.
- To comply with all relevant environmental legislation and promote environmental stewardship within our operations.
- To continually assess and improve our environmental performance through effective monitoring and reporting.

Quality Management:

- To meet and exceed customer expectations by delivering high-quality products and services.
- To implement effective quality management systems and processes.
- To foster a culture of continuous improvement through regular training, feedback, and innovation initiatives.

Commitments

- **Leadership and Accountability:** We commit to fostering a culture of health, safety, environmental responsibility, and quality excellence. Leadership at all levels will take responsibility for implementing this policy and promoting its values across the organisation.
- **Employee Engagement:** We recognise that our employees are our most valuable asset. We will engage them in health and safety, environmental sustainability, and quality management practices through training, communication, and involvement in decision-making processes.
- **Continuous Improvement:** We will establish measurable objectives and targets to drive our performance in health & safety, environment, and quality. Regular audits and reviews will be conducted to ensure compliance and identify opportunities for improvement.
- **Stakeholder Communication:** We will maintain open communication with our stakeholders regarding our health, safety, environmental, and quality performance.

Implementation and Review: This policy will be implemented and reviewed through our Integrated Management System (IMS). All employees are expected to understand and adhere to this policy and IMS, contributing to a safe, sustainable, and quality-driven organisation.
